Task and User Stories assigned to each member

Alvin

- GG-14: As a user, I should be able to search for an address and see the washrooms along the route so that I can make preparations.

Erin

- GG-37: As a user, I should be able to click on a location on the map and see information about the washroom.

Isaiah

- GG-15: As a user, I should be able to view my previous search history so that I can go there again.
- GG-18: As a user, I want to be able to click on a washroom, get directions to it and then be redirected to a map application so that I get directions to the washroom.
- GG-36: As a user, I want there to be icons on the navigation tab so that I know what tab I am navigating to.
- GG-45: As a user, I want to be able to change my name and condition in the settings page, and have those changes apply to the cards screen.
- GG-33: Implement website and call buttons on washroom info screen + restyle

Jenna

- GG-32: Restyle donation page, add washroom form, and report washroom form

Johnny

- GG-31: A user should be able to access a settings page which includes "Add washroom", and other existing settings features on GoHere

Miko

- GG-11: As a business, I want to be able to add my washrooms to the app using the app, so that more washrooms can be added into the database and I can get more customers.
- GG-34: As an admin, I should be able to use the admin web app with ease
- GG-35: As an admin, I should be able to register an account with a VERY specific code given to me by the GoHere dev team

Yong Le

- GG-12: As a user, I should be able to save washrooms to a list so that I can go back to frequently used washrooms.
- GG-13: As a user, I should be able to view my list of saved washrooms so that I can go back to frequently used washrooms.

Standup Meetings

Wednesday, March 20 - in-person

Start of the sprint, as a **group**, we:

- Assigned story points to user stories from backlog
